PRESS RELEASE
FOR IMMEDIATE RELEASE

TEMPORARY SUSPENSION AT THE COPPER RAND MINE.

Montréal, February 22, 2007 - Campbell Resources Inc. (TSX: CCH, OTC Bulletin Board: CBLRF) ("Campbell") announces the temporary suspension of mining activities at its Copper Rand mine, located in the Chibougamau region of Québec.

The suspension is the result of a rock fall which occurred during the night shift, and observations of other ground movements in the area. There were no personal injuries or damage to equipment resulting from the incident.

The Copper Rand Mine has been in transition to an Alimak mining system. The ground fall has taken place in an area developed for the older mining system. The new Alimak mining system, complete with a new paste filling system, will significantly improve ground conditions.

A complete assessment of the situation will be conducted before operations can resume.

This incident will not impact production from our Joe Mann operation.

Campbell is a mining company focusing mainly in the Chibougamau region of Quebec, holding interests in gold and gold-copper exploration and mining properties.
